Country Road, Brightwaters

Nurseries

Boulevard, Bay Shore, L. I., N. Y.
South Country Road, Babylon, L. I.

Introduction

In presenting this catalogue, we wish to thank our customers for their liberal past patronage and take pleasure in soliciting their further valued orders. Our aim has been to be as brief as possible and, at the same time, list all the most beautiful and best varieties of plants suitable for Long Island.

We make a specialty of evergreens and have an excellent stock of varieties that will do well in this vicinity. It is our practice to inspect each tree that leaves our nursery and give each department our personal attention.

To all interested we extend a cordial invitation to visit our nurseries and make a personal selection of trees and shrubs.

LANDSCAPE SERVICE

We consider it a pleasure to offer suggestions in regard to planting problems without charge, to those who have time and do not wish to employ experienced help. Where special visits, plans, specifications, etc., are necessary, a moderate charge will be made for that service.

Landscape work attempted without the most careful consideration of all details is never satisfactory and usually entails large additional expenditures for omissions and revisions. For good results, one has to know what varieties of shrubs attain certain heights and which varieties do well in the shade or which are suitable for sandy soil or seashore planting.

We have men who are technically trained in the designing and execution of landscape problems and have also the practical experience absolutely necessary in this kind of work. We have available at the proper seasons of the year, gardeners for general overhaul, summer and winter pruning, hedge trimming and winter mulching. Such work is important, if satisfactory results are to be secured and should be intrusted only to thoroughly trained men.

To meet the increasing demand for our trees and plants, we have started a new 38 acre nursery on the South Country Road just one mile west of the village of Babylon, which will be open for business on or about the first of August, 1926.

PLANTING SEASONS

For evergreens, from the time the frost leaves the ground until the latter part of June, though early planting is much preferred. Some varieties of evergreens, however, can be moved more or less satisfactorily all during the summer months. August, September and October are also excellent months for moving evergreens.

For shrubs, trees and fruit trees, from the latter part of March till June. In the fall, from the middle of October until the ground freezes.

GENERAL DIRECTIONS FOR ORDERING AND OUR TERMS

In ordering, always give explicit directions as to address and desired time of delivery. We will otherwise use our best judgment and forward by most economical route. Practically all our deliveries will be made by our trucks. Delivery is free of charge within five miles' radius of our office—beyond five miles a small charge will be made for delivery to cover cost, unless otherwise arranged for at time of sale.

Guarantee

It being impossible for us to control the after care and weather conditions which may affect newly planted trees, Bulk's Nurseries agrees to resupply, at one-half the original price paid, any plants sold at the within published prices, that may die within one year from date of invoice, from causes other than abuse or neglect. Making the following reservations:

1. The account be paid within 30 days from date of invoice.

2. That in the event we shall not have in stock at the time for replacement, plants like those originally supplied, or are prevented by strikes or other conditions beyond our control from making shipment of plants needed for replacement, then we are to apply the amount of credit to which the customer is entitled toward the purchase of other plants that he may at the time select and which we can supply.

We guarantee our stock to be true to name and will replace any that may prove otherwise or refund the purchase price. We guarantee our stock to be in good condition when shipped.

As many of our customers are at their country homes only on Saturdays and Sundays, our office will be open on those days during shipping seasons, or we will make an appointment with you at your home.

Evergreens

In this group are contained some of the most valued plants for landscape effects. The diversity of color and habit of growth in this class provides truly "a plant for every place and purpose," some for limited areas of foundation plantings or for bed and border uses, others for screens, hedges and windbreaks, and for group and specimen plantings. They are always desirable for any landscape planting for both summer and winter effects.

Arborvitae

Thuja occidentalis (American Arborvitae)—Also known as White Cedar. Easy to plant and thriving on a variety of soils. Each

1½ to 2 ft.	\$ 1.50
2 to 3 ft.	2.50
3 to 4 ft.	4.00
4 to 5 ft.	6.00
5 to 6 ft.	9.00
6 to 7 ft.	12.00

Thuja occidentalis compacta (Parsons Arborvitae) — Compact, upright, oval form; fresh green foliage. Each

12 to 15 in.	\$ 1.50
15-18 in.	2.25
18-24 in.	3.00

Thuja occidentalis Elwangereana (Tom Thumb Arborvitae) Each

1½ to 2 ft.	\$ 2.25
2 to 2½ ft.	3.00
2½ to 3 ft.	4.00

*Oriental Spruce*

Thuya occidentalis globosa (Globe Arborvitae)—Develops into globe-like head; quite dwarf, splendid for formal effects. Each

12 to 15 in.....	\$2.00
15 to 18 in.....	3.00
18 to 24 in.....	4.00

Thuya occidentalis Hoveyi (Hovey's Arborvitae) — Upright habit, with light green foliage. Each

15 to 18 in.....	\$2.00
18 to 24 in.....	2.50
24 to 30 in.....	3.50

Thuya occidentalis lutea (George Peabody Arborvitae)—Pyramidal in habit. One of the best golden forms. Each

2 to 2½ ft.....	\$2.50
2½ to 3 ft.....	3.50
3 to 4 ft.....	5.50
4 to 5 ft.....	9.00

Thuya occidentalis pyramidalis (Pyramidal Arborvitae) — Quite tall, columnar evergreen, retaining its bright green color throughout the winter

	Each
2 to 2½ ft.....	\$ 2.25
2½ to 3 ft.....	3.50
3 to 4 ft.....	5.00
4 to 5 ft.....	7.00
5 to 6 ft.....	10.00
6 to 7 ft.....	12.50

Thuya occidentalis Rosenthali (Rosenthal's Arborvitae)—A very dense and symmetrical evergreen; very distinctive. Each

2½ to 3 ft.....	\$ 4.00
3 to 4 ft.....	7.00
4 to 5 ft.....	10.00

Thuya occidentalis siberica (Siberian Arborvitae)—Compact and dense foliage, the color remains quite a rich green throughout the year. One of the hardiest. Each

15 to 18 in.....	\$2.00
1½ to 2 ft.....	2.50
2 to 2½ ft.....	3.50
2½ to 3 ft.....	5.00
3 to 4 ft.....	7.00

Biota orientalis (Chinese Arborvitae) — Columnar habit. Best adapted for bed or border plantings where its light green foliage lends a pleasing note of contrast. Each

1 to 1½ ft.....	\$ 1.50
1½ to 2 ft.....	1.75
2 to 3 ft.....	2.75
3 to 4 ft.....	4.50
4 to 5 ft.....	8.00
5 to 6 ft.....	12.00
6 to 7 ft.....	15.00

Biota orientalis compacta (Dwarf Chinese Arborvitae)—A bushy tree of slow growth. An upright oval in shape. Fine green foliage.

	Each
1½ to 2 ft.....	\$3.00
2 to 2½ ft.....	4.00
2½ to 3 ft.....	5.00

Biota nana aurea (Dwarf Golden Biota)—A bushy tree of slow growth, in shape an upright oval. Beautiful golden color.

	Each
10 to 12 in.....	\$2.00
1 to 1½ ft.....	3.00
1½ to 2 ft.....	5.00

Firs and Spruces

Abies concolor (White Fir)—Very majestic with its rich silvery needles. One of the hardiest of the Firs. Will stand snow, ice and wind abuse.

	Each
1½ to 2 ft.....	\$ 3.50
2 to 3 ft.....	5.50
3 to 4 ft.....	9.00
4 to 5 ft.....	12.50
5 to 6 ft.....	15.00

Abies Nordmaniana (Nordman's Fir)—Lustrous, deep green foliage and symmetrical form.

	Each
4 to 5 ft.....	\$10.00
5 to 6 ft.....	15.00
6 to 7 ft.....	20.00

Picea alba (White Spruce)—Native spruce, resembles the Norway Spruce but is more compact and a slower grower.

	Each
1½ to 2 ft.....	\$2.50
2 to 3 ft.....	3.50
3 to 4 ft.....	5.00

Picea excelsa (Norway Spruce)—The best known Spruce. Fine for specimens, for screens and windbreaks.

	Each
1½ to 2 ft.....	\$ 2.50
2 to 3 ft.....	3.00
3 to 4 ft.....	4.50
4 to 5 ft.....	6.00
6 to 7 ft.....	11.00

Picea excelsa pendula (Weeping Norway Spruce)—An unusual spruce with drooping branches for specimen or group planting.

4 to 5 ft.....	\$12.50
----------------	---------

Picea orientalis (Oriental Spruce)—Short, dark, lustrous needles. A genuine gem among evergreens.

	Each
3 to 4 ft.....	\$ 7.50
4 to 5 ft.....	12.00
5 to 6 ft.....	18.00
6 to 7 ft.....	25.00
7 to 8 ft.....	30.00

Picea pungens (Colorado Spruce Green)—Symmetrical habit, very hardy, with light green foliage.

	Each
2 to 3 ft.....	\$4.50
3 to 4 ft.....	6.00
4 to 5 ft.....	9.00

Douglas Fir

*Koster's Blue Spruce*

Picea pungens glauca (Colorado Blue Spruce)—Very fine spruce.

Each

1½ to 2 ft.....	\$ 6.00
2 to 3 ft.....	10.00
3 to 3½ ft.....	12.50
3½ to 4 ft.....	15.00

Picea pungens glauca Kosteri (Koster's Blue Spruce)—The popular Blue Spruce. Fine for lawn specimens.

Each

2½ to 3 ft.....	\$15.00
3 to 3½ ft.....	17.50
3½ to 4 ft.....	20.00
4 to 5 ft.....	28.00
5 to 6 ft.....	35.00
6 to 7 ft.....	40.00

Pseudotsuga douglasi glauca (Douglas Fir)—A beautiful tree with soft, bluish foliage. Grows rapidly in sandy loam.

	Each
1½ to 2 ft.....	\$ 2.50
2 to 3 ft.....	3.50
3 to 4 ft.....	5.50
4 to 5 ft.....	8.00
5 to 6 ft.....	12.50

Hemlocks

(*Tsuga*)

Tsuga caroliniana (Carolina Hemlock)—A compact graceful tree of rare beauty. The dark green needles are silver colored beneath.

Each

3½ to 4 ft.....	\$ 9.00
4 to 5 ft.....	12.50
5 to 6 ft.....	20.00

Tsuga canadensis (American Hemlock)—Magnificent native tree, extremely useful for ornamental planting. As lawn specimens in full sunlight the lower branches sweep the ground. They tolerate partial shade and their endurance of shearing adapts them for limited areas and for use in hedges.

Each

1 to 1½ ft.....	\$ 1.50
1½ to 2 ft.....	2.50
2 to 2½ ft.....	3.75
2½ to 3 ft.....	4.50
3 to 3½ ft.....	6.00
3½ to 4 ft.....	7.50
4 to 5 ft.....	10.00
5 to 6 ft.....	14.00
6 to 7 ft.....	17.50

Japanese Cypress

(*Retinispora*)

Retinispora obtusa (Obtuse Leaved Retinispora)—Foliage rich dark green, arranged in an odd cluster-like form.

Each

1½ to 2 ft.....	\$2.75
2 to 2½ ft.....	4.00
2½ to 3 ft.....	5.00
3 to 4 ft.....	7.50

Japanese Cypress (Continued)

Retinispora obtusa gracilis (Graceful Obtuse Leaved Retinispora)—A beautiful variety for lawn planting. Of slow growth with branches light and graceful at ends. Each

2 to 2½ ft.....	\$ 4.50
3 to 4 ft.....	10.00
4 to 5 ft.....	16.00

Retinispora pisifera (Pea-Fruited Retinispora)—An exceedingly hardy evergreen with beautiful slender and graceful branches full of light green leaves. A wonderful plant for ornamental planting either in groups or as individual specimens. Each

1½ to 2 ft.....	\$2.50
2 to 2½ ft.....	3.50
2½ to 3 ft.....	4.50
3 to 4 ft.....	7.00

Retinispora pisifera aurea (Golden Pea-Fruited Retinispora)—Light, airy, golden foliage that blends well in mixed plantings. Each

1½ to 2 ft.....	\$ 2.50
2 to 2½ ft.....	3.50
2½ to 3 ft.....	4.50
3 to 4 ft.....	7.00
4 to 5 ft.....	10.00

Retinispora filifera (Thread Branched Retinispora)—Fine form with very graceful long pendulous thread-like branchlets; excellent for foundation plantings, foliage light green. Each

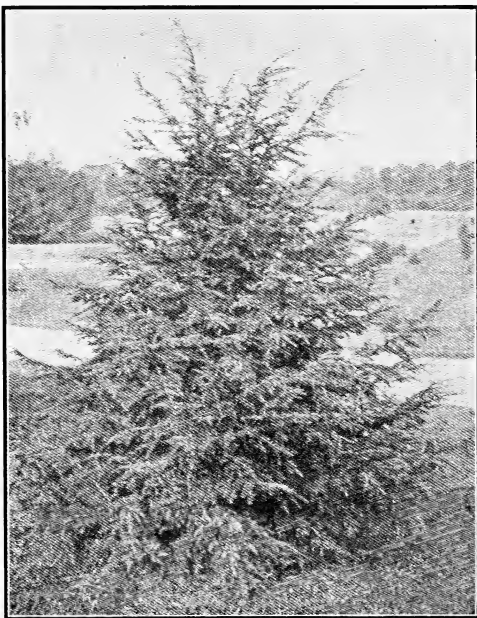

1½ to 2 ft.....	\$ 3.00
2 to 3 ft.....	5.00
3 to 4 ft.....	8.00
4 to 5 ft.....	14.00
5 to 6 ft.....	17.50
6 to 7 ft.....	25.00

Retinispora plumosa (Plume-Like Retinispora)—Known as the plume-cypress. Dwarf, green form. Excellent for use in foundation plantings.

	Each
1 to 1½ ft.....	\$ 1.50
1½ to 2 ft.....	2.50
2 to 2½ ft.....	3.50
2½ to 3 ft.....	4.50
3 to 4 ft.....	7.00
4 to 5 ft.....	10.00

Retinispora plumosa aurea (Golden Retinispora)—Similar to the preceding variety but with a rich, warm golden foliage. Each

1 to 1½ ft.....	\$ 2.00
1½ to 2 ft.....	2.50
2 to 2½ ft.....	3.50
2½ to 3 ft.....	5.00
3 to 4 ft.....	7.50
4 to 5 ft.....	12.00

Hemlock

*Retinispora plumosa*

Retinispora squarosa Veitchi (Blue Japanese Cypress)—Pyramidal and dense in form with soft, feathery growth of bluish green. The plant can be kept at any height by pruning, which process does not disturb it. Each

1 to 1½ ft.....	\$ 2.00
1½ to 2 ft.....	3.00
2 to 2½ ft.....	4.50
2½ to 3 ft.....	6.00
3 to 4 ft.....	8.00
4 to 5 ft.....	12.00

Junipers and Cedars

Juniperus Chinensis (Chinese Juniper)—Pyramidal habit with particularly ornamental light green foliage; the branches spread horizontally, forming bushy heads. Each

2½ to 3 ft.....	\$ 5.00
3 to 4 ft.....	7.50
4 to 5 ft.....	10.00
5 to 6 ft.....	15.00

Juniper chinensis argentia variegated (Variegated Chinese Juniper)—Light green foliage with terminal branches tipped yellow. Very distinctive. Each

1½ to 2 ft.....	\$ 3.00
2 to 2½ ft.....	6.00
2½ to 3 ft.....	8.00
3 to 4 ft.....	14.50
4 to 5 ft.....	17.50

Juniperus communis canadensis (Canadian Juniper)—Excellent for border or rockery planting. Each

1 to 1½ ft. spread.	\$1.50
1½ to 2 ft. spread.	2.00
2 to 2½ ft. spread.	3.00

Juniperus communis aurea (Golden English Juniper)—Because of its spreading form and beautiful golden foliage this evergreen will add a touch of color to any group planting and greatly improve its effectiveness. A very valuable addition to your collection or as individual specimens. Each

1 to 1½ ft.....	\$ 1.75
1½ to 2 ft.....	2.50
2 to 3 ft.....	3.50
4 to 5 ft.....	10.00

Juniperus communis hibernica (Irish Juniper)—A slender columnar form with glaucous green foliage. Very erect growth. Each

2 to 2½ ft.....	\$2.00
2½ to 3 ft.....	2.75

Juniperus japonica (Japanese Juniper)—Very solid green foliage; oblique, spreading habit. Each

3 to 4 ft. diam.....	\$ 7.50
4 to 5 ft. diam.....	12.00

Juniperus japonica aurea (Golden Japanese Juniper)—Small, splendid golden scaly needles, spreading habit—very distinct and attractive. Each

2 to 3 ft. diam.....	\$ 6.00
3 to 4 ft. diam.....	12.00
4 to 5 ft. diam.....	15.00

Juniperus procata (Trailing Juniper)—Low spreading habit. For use in rock gardens and as ground cover on banks and terraces. With dark green foliage this is truly one of the best varieties of the Juniper family for effective ornamental plantings.

	Each
3 to 4 ft.....	\$5.00
4 to 5 ft.....	8.00

Juniperus pfitzeriana (Pfitzer's Juniper)—Vase shaped, spreading growth and light green foliage producing a beautiful soft effect. Extremely hardy and thrives in shade.

	Each
1 to 1½ ft.....	\$ 2.00
1½ to 2 ft.....	3.00
2 to 2½ ft.....	4.00
2½ to 3 ft.....	6.50
3 to 4 ft.....	10.00
4 to 5 ft.....	15.00

Juniperus Sabina (Savin Juniper)—A vase shaped plant with deep green foliage. It is not fastidious about soil conditions and does well on light, sandy, poor soil. Very useful plant for all purposes. Valued for rockeries, groups and borders in combination with other low-growing evergreens. Each

1½ to 2 ft.....	\$3.00
2 to 2½ ft.....	4.00

Juniperus Stricta (Stricta Juniper)—Very compact habit and of slow growth. Foliage bluish green. Very hardy.

	Each
10 to 12 in.....	\$ 2.00
1 to 1½ ft.....	2.50
½ to 2 ft.....	3.75
2 to 2½ ft.....	5.00
2½ to 3 ft.....	7.50
3 to 4 ft.....	10.00
4 to 5 ft.....	15.00

Juniperus Scopulorum argentia (Silver Juniper)—Fine pyramidal, compact grower.

	Each
2 to 2½ ft.....	\$3.00
2½ to 3 ft.....	3.50
3 to 4 ft.....	5.00

Juniperus virginiana (Red Cedar)—Our native Red Cedar, useful as formal specimens, in groups and for producing naturalistic effects. Will thrive at the seashore.

	Each
2 to 3 ft.....	\$ 2.00
3 to 4 ft.....	3.00
4 to 5 ft.....	5.00
5 to 6 ft.....	6.00
6 to 7 ft.....	8.00
7 to 8 ft.....	10.00
8 to 9 ft.....	12.00
9 to 10 ft.....	15.00
10 to 12 ft.....	17.00
12 to 14 ft.....	22.00
14 to 30 ft.....	Prices on application

Juniperus virginiana glauca (Blue Virginia Cedar)—Slender type, most nearly corresponding to the classic Cypress. Distinctive glaucous foliage. Is probably one

(Continued on Page 12)

Pyramidal Arborvitae

Juniperus virginiana glauca

(Continued from Page 11)

of the most popular forms in the garden. Each

5 to 6 ft.....	\$14.00
6 to 7 ft.....	17.50
7 to 8 ft.....	20.00

Juniperus virginiana Schottii

(Schott's Juniper)—Rich green color in winter; tall and pointed. A fine tree for formal or Italian effects. Each

4 to 5 ft.....	\$ 6.50
5 to 6 ft.....	8.00
6 to 7 ft.....	10.00
8 to 9 ft.....	15.00

Cryptomeria Japonica (Japanese Cedar)

—Narrow headed tree of somewhat open conical growth. Heavy scale like foliage, light green and distinctive. Displayed best as specimen or in open groupings. From Japan. Each

2½ to 3 ft.....	\$ 6.00
3 to 4 ft.....	9.00
4 to 5 ft.....	12.50
5 to 6 ft.....	20.00
6 to 7 ft.....	25.00
7 to 8 ft.....	35.00

The Pines

(Pinus)

The Pines are undoubtedly one of the most popular evergreens planted and repay the planter many times with their beauty.

Pinus austriaca (Austrian Pine)

—Tall, massive with long, stiff needles. Thrives along the sea shore. Handsome for specimen or open group planting. Each

3 to 4 ft.....	\$6.50
4 to 5 ft.....	8.00

Pinus mughus (Mugho Pine)—

A low spreading dwarf pine. Invaluable as a foreground plant in foundation plantings. Grows well on rocky ground. Each

1 to 1½ ft.....	\$3.00
1½ to 2 ft.....	4.00
2 to 2½ ft.....	5.00
2½ to 3 ft.....	7.50

Pinus resinosa (Norway or Red Pine)—Very ornamental, quite hardy and of vigorous growth. Very desirable for lawn or park planting. Each

2½ to 3 ft.....	\$ 3.50
3 to 4 ft.....	5.00
4 to 5 ft.....	8.00
5 to 6 ft.....	10.00

Pinus strobus (White Pine)—

The grand old pine so well known; the picturesque pine of many a landscape. The foliage is soft and bluish-green. Each

3 to 4 ft.....	\$ 4.00
4 to 5 ft.....	5.00
5 to 6 ft.....	7.50
6 to 8 ft.....	10.00
8 to 10 ft.....	15.00
10 to 12 ft.....	20.00

The Yews

(Taxus)

Taxus cuspidata brevifolia

(Dwarf Japanese Yew)—Irregular, unique outline with deep green foliage. A popular variety for places where low spreading plant is wanted. Does well in shade and is extremely hardy. Each

1 to 1½ ft.....	\$ 3.00
1½ to 2 ft.....	4.50
2 to 2½ ft.....	7.50
3 to 4 ft.....	15.00

Taxus cuspidata capitata (Japanese Yew)

—One of the hardiest of Yews. Upright rather open growth, with rich green foliage. Makes a beautiful medium sized specimen and can be kept symmetrical by trimming. Each

2 to 2½ ft.....	\$ 7.00
2½ to 3 ft.....	9.00
3 to 3½ ft.....	12.50
3½ to 4 ft.....	15.00
4 to 5 ft.....	19.00
5 to 6 ft.....	22.50

Taxus repandens (Spreading English Yew)

—Low spreading growth with dark, glossy green foliage, making it effective in the foreground of mixed evergreens. Each

1 to 1½ ft.....	\$ 3.00
1½ to 2 ft.....	4.00
2 to 2½ ft.....	7.00
4 to 5 ft.....	18.00

Evergreen Shrubs

With few exceptions, no grounds, either small or extensive, should be without some representative of this rich and interesting group of plants. Shade enduring and their rich blossom and foliage effect, makes them almost indispensable. Certain varieties of this class, such as Rhododendrons, Azaleas and Laurel, ordinarily grow more satisfactorily and show to better advantage when planted in rather heavy masses. A deep, cool, moist sub-soil with proper drainage is the ideal soil.

The following list comprises the most popular varieties:

Azalea Amoena (Pink Japanese Azalea)—Charming, low growing evergreen with dark pink flower. Very showy when in bloom. Each

10 to 12 in. spread.....	\$2.00
12 to 15 in. spread.....	2.50
15 to 18 in. spread.....	3.00
18 to 24 in. spread.....	5.00

Azalea Hinodigiri (Red Japanese Azalea)—Vivid red flowers in spring make this plant extremely showy and desirable. Each

10 to 12 in. spread.....	\$2.00
12 to 15 in. spread.....	3.00
15 to 18 in. spread.....	4.00
18 to 24 in. spread.....	6.00

Azalea Yodogawa (Yodogawa Azalea)—Semi-evergreen with brilliant purplish pink flowers. Each

1½ to 2 ft.....	\$3.00
2 to 2½ ft.....	5.00

Buxus sempervirens (Boxwood)—Most familiar variety. Slow growing, close branched and develops into dense, compact specimen. We offer the following varieties:

Boxwood, Bush—	Each
6 to 8 in.....	\$0.40
8 to 10 in.....	0.80
10 to 12 in.....	1.25
12 to 15 in.....	1.75
15 to 18 in.....	2.25
1½ to 2 ft.....	3.50
2 to 2½ ft.....	5.00

Boxwood, Globe Shaped—	Each
12 to 15 in.....	\$ 4.00
15 to 18 in.....	6.00
1½ to 2 ft.....	10.00
2 to 2½ ft.....	14.00
2½ to 3 ft.....	20.00

Boxwood, Pyramidal Form—	Each
1½ to 2 ft.....	\$ 5.00
2 to 2½ ft.....	8.00
2½ to 3 ft.....	10.00
3 to 3½ ft.....	15.00

Buxus suffruticosa (Boxwood) Edging)—Valuable for edging walks and for use in all formal and old-fashioned gardens. Per 100

4 to 6 in.....	\$25.00
6 to 8 in.....	35.00
8 to 10 in.....	50.00

Euonymus Radicans vegeta—Known as Evergreen Bittersweet. Rich green foliage and extremely hardy. Excellent plant for foreground to Rhododendrons and evergreens. Each

1 to 1½ ft.....	\$0.75
1½ to 2 ft.....	1.00

Euonymus Radicans Variegated—Similar to preceding, with exception of foliage, which is dark green center with white border. Each

1 to 1½ ft.....	\$0.75
1½ to 2 ft.....	1.00

Ilex crenata (Japanese Holly)—This plant will thrive in partial shade and near the sea shore. In foundation planting along with other evergreens, it is very distinctive and effective. Each

2 to 2½ ft.....	\$5.00
2½ to 3 ft.....	7.50

Kalmia latifolia (Mountain Laurel)—A profuse bloomer in May and early June, with large corymbs of pink and white flowers.

	Each
1 to 1½ ft.....	\$1.50
1½ to 2 ft.....	2.00
2 to 2½ ft.....	3.50
2½ to 3 ft.....	4.50
3 to 4 ft.....	6.00

Leucothoe Catesbaei (Drooping Andromeda)—Long, dark green leaves that turn an attractive bronze in winter. Gracefully arched branches with pendant bell-shaped flowers in spring. Ideal for shady places.

	Each
12 to 15 in.....	\$2.00
15 to 18 in.....	2.50
18 to 24 in.....	3.00

Mahonia Aquifolia (Holly Leaved Mahonia)—Holly-like leaves, yellow flowers in May. Handsome broad leaf evergreen.

	Each
1 to 1½ ft.....	\$1.50
1½ to 2 ft.....	2.00
2 to 3 ft.....	3.00

Rhododendron Catawbiense—Rosy purple flowers, blooming in late spring and glossy dark green leaves.

	Each
1½ to 2 ft.....	\$3.00

It's Not a Home
Until It's Planted

Ornamental Trees

In addition to the trees which are valued for their shade, are those flowering trees, which, at different times during the spring and summer shower the lawn with their bloom. Do not forget that while shade trees add materially to the property value and landscape charm of your home, the initial cost is very small as compared with the enjoyment that you receive. The average shade tree is a long investment and returns your money many fold throughout the years of its usefulness.

Acer platanoides (Norway Maple)—One of the best trees for street and lawn planting. A rapid, vigorous grower which develops into a broad headed specimen. Each

Lombardy Poplars

*Spirea van Houttei (Bridal Wreath)*

Flowering Shrubs

Whether planted individually or collectively, shrubs are an important feature in the adornment of any grounds. In groups they can be made to emphasize some feature of the lawn, to screen the garage, the laundry yard or some unsightly view. Among borders of the lawn, along walks and drives and in corners, collections of shrubs may be gathered that will give a succession of bloom from early spring until fall. In the list that follows will be found shrubs for all such purposes. The month of the year mentioned in the description indicates the season when the shrub usually flowers.

Berberis Thunbergi (Japan Barberry)—May. A great favorite for hedges, shrub groups and plantings generally.

	Each	10
1 to 1½ ft. high..	\$0.30	\$ 2.50
1½ to 2 ft. high..	0.40	3.50

Berberis purpurea (Purple Leaf Barberry)—Attractive purple foliage. Adds variety and color to the shrubbery border.

	Each	10
2 to 3 ft. high....	\$0.75	\$ 6.00
3 to 4 ft. high....	1.00	7.50

Buddleia (Butterfly Bush)—July to frost. Long spikes of long blue

flowers. Dies down to the ground each winter.

	Each	10
2 to 3 ft. high....	\$0.75	\$ 6.00

Cornus sibirica (Siberian Dogwood)—Branches coral red. Quite ornamental for winter effects.

Ligustrum ovalifolium (California Privet)—This shrub is now in universal demand for hedge purposes. It will thrive everywhere even at the sea shore. Per 10

1 to 2 ft.....	\$0.80
2 to 3 ft.....	1.20
3 to 4 ft.....	2.50

Ligustrum Ibota (Ibota Privet)—Upright with white flowers and blue black berries. Autumn foliage dark red. Each 10

2 to 3 ft. high.....	\$0.50	\$4.00
3 to 4 ft. high.....	.75	6.00

Lonicera grandiflora (Bush Honeysuckle)—May. Slender, upright branches. White flowers.

	Each	10
2 to 3 ft..	\$0.60	\$ 5.00
3 to 4 ft..	.75	6.00
4 to 5 ft..	1.00	7.50
5 to 6 ft..	1.50	10.00
6 to 8 ft..	2.00	15.00

Lonicera tartarica rosea—May. Similar to the preceding variety but slower growing. Flowers pink. Each 10

2 to 3 ft..	\$0.60	\$5.00
3 to 4 ft..	.75	6.00

Lonicera fragrantissima—March-April. Delightfully fragrant white flowers. Scarlet fruits and excellent foliage. Each 10

2 to 3 ft..	\$0.60	\$5.00
3 to 4 ft..	.75	6.00

Philadelphus coronarius (Mock Orange)—May. Vigorous, hardy, erect

growing. Fragrant white flowers. Each 10

2 to 3 ft.....	\$0.60	\$5.00
3 to 4 ft.....	.75	6.00

Philadelphus grandiflorus (Mock Orange)—May or June. Large white and fragrant flowers. Tall growing. Each 10

2 to 3 ft.....	\$0.60	\$ 5.00
3 to 4 ft.....	.75	6.00
4 to 5 ft.....	1.00	7.50
5 to 6 ft.....	1.25	10.00

Philadelphus virginial—Very large, slightly fragrant flowers; often 2 inches across. Blooms all summer; good cut flower Each

1 to 1½ ft.....	.60c
1½ to 2 ft.....	.75c

Prunus triloba (Double Flowering Plum)—May. A fine shrub bearing a profusion of double pink flowers all along the branches. Each

2 to 3 ft.....	\$1.50
3 to 4 ft.....	2.00

Spirea opulifolia—June. Large, vigorous growing, bearing an abundance of fragrant white flowers in flat clusters.

	Each	10
2 to 3 ft.....	\$0.60	\$ 5.00
3 to 4 ft.....	.75	6.00
4 to 5 ft.....	1.00	7.50
5 to 6 ft.....	1.25	10.00

Spirea humalda (Everblooming Spirea)—June until frost. Abundant, flat clusters of rose-colored flowers. Slow grower. Each 10

1 to 1½ ft.....	\$0.60	\$5.00
1½ to 2 ft.....	.75	6.00

Spirea Van Houttei (Bridal Wreath)—May. Among the finest. A profusion of white flowers cover the graceful drooping branches.

	Each	10
2 to 3 ft.....	\$0.60	\$5.00
3 to 4 ft.....	.75	6.00
4 to 5 ft.....	1.00	9.00

Spirea Reevesiana—Last of May. Similar to the Van Houttei, except that its leaves assume autumnal tints.

	Each	10
2 to 3 ft.....	\$0.60	\$5.00
3 to 4 ft.....	.75	6.00
4 to 5 ft.....	1.00	9.00

Spirea Thunbergi (Snow Garland)—April-May. Very graceful bush with enumerable small white flowers. Fine for sea-side planting.

	Each	10
1½ to 2 ft.....	\$0.75	\$ 6.00
2 to 3 ft.....	.90	7.50
3 to 4 ft.....	1.25	10.00

Sambucus aurea (Golden Elder)—A showy, golden leaved shrub, valuable for color contrast.

	Each	10
2 to 3 ft.....	\$0.60	\$5.00
3 to 4 ft.....	.75	6.00
4 to 5 ft.....	1.00	7.50

Symphoricarpos racemosus (Snowberry)—A slender shrub, bearing clusters of waxy white fruits late in the fall. Does well in shady places.

	Each	10
1½ to 2 ft.....	\$0.50	\$4.00
2 to 3 ft.....	.75	6.00
3 to 4 ft.....	.90	8.00

Symphoricarpos vulgaris (Indian Currant)—Clusters of small red berries in the fall. Does well in shady places.

	Each	10
1½ to 2 ft.....	\$0.50	\$4.00
2 to 3 ft.....	.75	6.00
3 to 4 ft.....	.90	7.50

Syringa vulgaris (Common Lilac)—May. The well known old-fashioned lilac. Flowers are very fragrant, varying from pale blue to lavender.

Vines and Climbers

For quick results in covering the bare sides and softening the sharp angles of buildings, hiding unsightly fences, beautifying and shading porches, bowers and summer houses, vines and climbers are indispensable. The sweeping vines about a porch appeal to everyone.

(All strong field grown plants)

Ampelopsis Veitchi (Boston Ivy)
—The most valuable and generally planted vine of strong, thrifty habits which will cling to wood or stone.

60c each. \$5.00 per 10

Hedera helix (English Ivy)—A familiar evergreen vine with thick, dark green foliage.

60c each. \$5.00 per 10

Clematis paniculata—Clear and glossy foliage. Flowers are delicate, star-like, pure white.

60c each. \$5.00 per 10

Euonymus—(See broadleaf evergreens.)

Lonicera Halleana (Hall's Japan Honeysuckle)—Flowers white, turning to yellow; very fragrant.

40c each. \$3.00 per 10.

Extra large, 60c each.

Bignonia grandiflora (Trumpet Vine)—Flowers in July with orange red flowers.

75c each. \$6.00 per 10.

Vinca Minor (Myrtle)—A familiar evergreen creeper with blue flowers. A splendid ground cover.

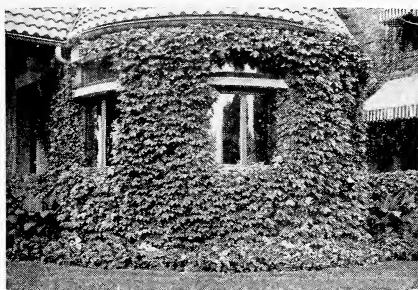

25c each. \$2.00 per 10.

Wisteria Chinensis (Purple Wisteria)—Most desirable for pergolas and to climb upon old trees.

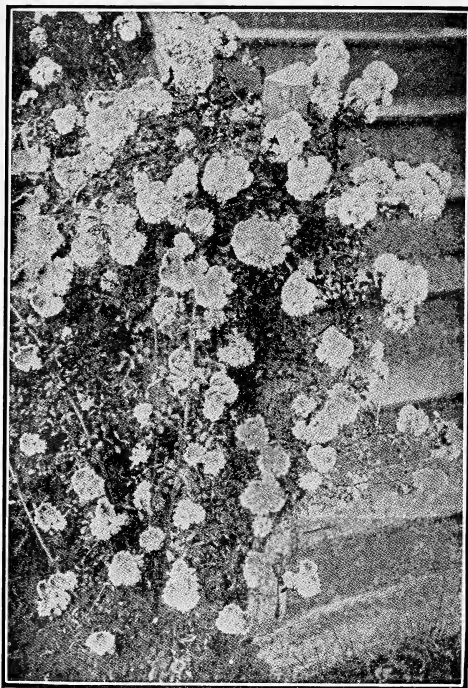

1.00 each. \$7.50 per 10.

Extra large, \$1.50 each.

Climbing Roses—(See Roses.)

Boston Ivy (Ampelopsis Veitchi)

Climbing Rose

Hardy Roses

Roses—the mere name is an inspiration to garden lovers. Nothing can take the place of the rose; almost every home has room for at least a few.

Roses will grow in any fertile soil, but are much improved in bloom, fragrance and beauty by rich soil, liberal fertilizing and good cultivation.

Branches should be well cut back each early spring.

Hybrid Tea and Perpetual Blooming Roses

(Strong 2-year-old field grown,
\$1 each, \$9 per 10.)

Duchess of Wellington—Saffron yellow, stained crimson.

George Dickson—Velvety red.

Gruss an Teplitz—Fiery crimson; very free.

Killarney Brilliant—Improved Killarney. Brilliant pink.

Lady Ursula—Smooth flesh pink.

Madame Ravery—Golden yellow buds, opening orange yellow.

Miss Lolita Armour—Chrome yellow, very double.

Mme. Caroline Testout—Brilliant satiny rose.

Mme. Jules Bouche—White, salmon pink center.

Mrs. Aaron Ward—Deep Indian yellow.

Mrs. Franklin Dennison—Very large, full well-formed flowers of porcelain white.

Ophelia—Light salmon pink flesh, yellow base.

Red Radiance—Bright carmine, salmon, shaded red.

Hybrid Perpetual and Polyantha Roses

(Strong 2-year-old field grown, \$1 each, \$9 per \$10.)

Edith Cavell (Polyantha)—Brilliant scarlet.

Frau Karl Druschki—Large white bloom.

Gen. Jacqueminot—Brilliant scarlet crimson. A wonderful flower.

Katharina Zeimet (Polyantha)—White.

Magna Charta—Rosy pinkish carmine.

Paul Neyron—Clear pink; attractive.

Ulrich Brunner—Light red, shaded a delightful scarlet.

Rambler and Climbing Roses

2 yrs. old 75c each; \$7.00 per 10
Extra strong, \$1.50 each.
\$12.50 per 10.

American Beauty Climbing—Rich carmine; large double blooms.

American Pillar—Cherry pink, white center.

Dorothy Perkins—Shell pink; a very popular variety.

Dr. W. Van Fleet—Flesh pink.

Excelsa—Brilliant scarlet crimson.

Goldfinch—Attractive yellow flowers that bloom in great profusion.

Paul's Scarlet Climber—Flashing and vivid scarlet. Price \$1.00 each.

Silvermoon—Pure waxy white. A truly beautiful rose of this variety.

Tausendschon—Varies from pink to white. One of the best climbers.

White Dorothy Perkins—Pure white double flowers.

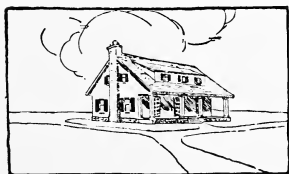

TREE OR STANDARD ROSES

Best varieties \$2.75 each.

Newest Polyantha varieties: Pot grown, \$2.75 each. \$25.00 per 10.

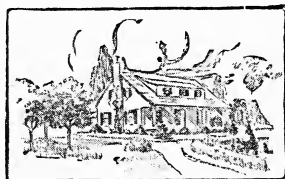

Strong Plants

Our Roses are strong plants, grown in the open ground in the Nursery—not small pot stuff nor exhausted florists' stock, discarded after blooming. Our field-grown Roses have a stored-up strength and vigor that will respond at once when planted in your garden.

Before

and

After Planting

Hardy Perennials

It is no wonder that these old-fashioned hardy garden flowers continue to increase in popularity, for there is not a time during the whole flowering season when some hardy perennial is not in bloom, and when, during the late summer, few flowering shrubs are in blossom, these little plants may be depended upon for attractive display.

Plant Perennials this year in the flower bed where you have been using annuals. Each year you have to replace the annuals, whereas the Perennials come up each season with very little work or expense.

You do not need a large estate to have an old-fashioned garden or border from which you can pick flowers from early spring until late fall. Let us help plan your garden.

The size mentioned in the description indicates the height the plants may be expected to attain at maturity, the month represents the season of bloom.

25c each. \$2.50 per doz. \$20.00 per 100.

Extra strong, 35c each. \$3.50 per doz. \$25.00 per 100. (except where otherwise noted.)

Achillea, The Pearl—2 ft. Small, double white flowers. June to October.

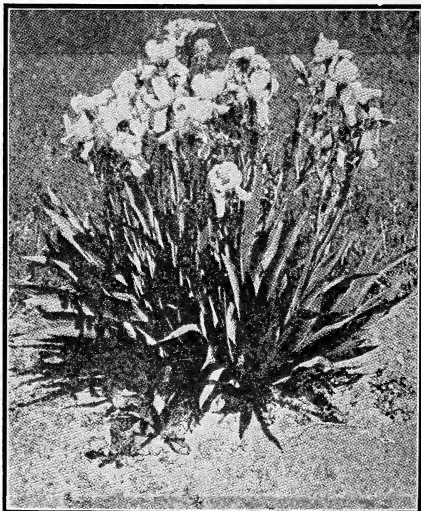

Anemone (Japanese wind-flower)—White and pink. Fine for cutting and decorating purposes and do well in semi-shaded places. 2 to 3 ft. September-October.

Astilbe (Spirea)—1 to 2 ft. June. White and pink. They thrive best in moist soil and partial shade. 35c each.

Aquilegia hybrids (Columbine)—2 to 2½ ft. May to July. A single long spurred variety, colors including red, blue, white and yellow.

Aster tartarica—4 ft. September-October. One of the showiest and best with numerous small flowers of clear lilac.

Campanula Medium (Canterbury Bell)—2 ft. June. In mixed colors.

Iris Germanica

Centaurea Montana (Cornflower)— $1\frac{1}{2}$ ft. Violet blue thistle-like flowers from June till September.

Chrysanthemum Autumn Beauty—2 ft. October-November. Golden brown flowers.

35c each. \$3.00 per 10.

Chrysanthemum Maximum (Shasta Daisy)—1 to 2 ft. June to September. Large daisy-like white flowers with yellow center.

Convallaria majalis (Lily of the Valley)—6 inches. May. Loves moist and shady places.

35c each. \$3.00 per 10.

Coreopsis grandiflora—2 to 3 ft. Bright yellow flowers. Blooms from June to frost if flowers are cut as they fade.

Delphinium belladonna (Larkspur)— $2\frac{1}{2}$ to 3 ft. Tall spikes of beautiful light blue flowers in June and July.

Dianthus barbatus (Sweet William)—1 to $1\frac{1}{2}$ ft. May-June. Very showy flower-clusters of red, pink and white.

Dianthus—Hardy pink. Fine for cut flowers. 1 ft. May-June.

Dielytra spectabilis (Bleeding Heart)—1 to 2 ft. Its arching stems bear drooping heart-shaped flowers of white and rose. Valuable for planting in the shade. May-July.

60c each. \$5.00 per 10.

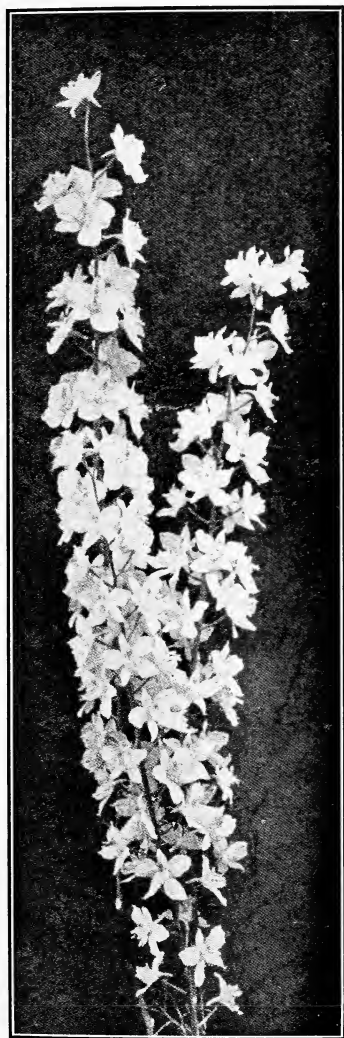

Digitalis (Foxglove)—The foxgloves are stately old-fashioned plants with tall spikes of drooping bells that grow 4 to 5 ft. in height. June and July.

Forget-Me-Not (Myosotis)—8 to 10 inches. May to September. Beautiful small blue flowers. Prefer moist, shady places.

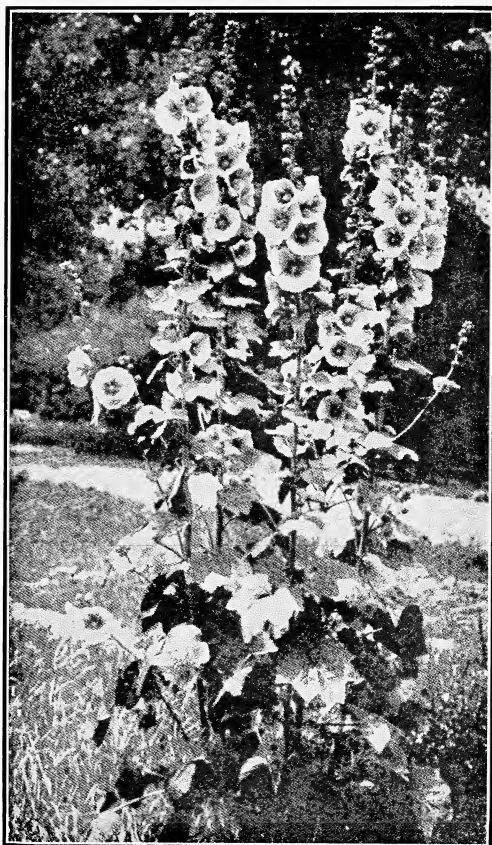

Funkia undulata medio variegata (Plantain Lily)—Variegated green and white leaves with attractive purple flowers.

35c each. \$2.50 per 10.

Gaillardia grandiflora (Blanket Flower)—2 ft. Attractive daisy-like flowers with orange tipped petals shading to scarlet in the center. June until frost.

Larkspur

Hollyhocks

Gypsophila paniculata (Baby's Breath)—3 to 4 ft. Very minute, delicate white flowers. Ideal for trimming bouquets. June-August.

Hollyhocks—5 to 8 ft. In shades of red, white and pink.

Hibiscus (Marsh Mallow)—5 to 6 ft. A large leaved plant producing large, showy flowers throughout the summer. Fine for massing in moist places. Colors, red, pink and white.

Iris Germanica (German Iris)—They vary in height from 2 to 3 ft. Blossoming in June. In shades of purple, lavender, blue, yellow and white.

Iris Kaempferi (Japanese Iris)—2 to 3 ft. Large, flat flowers in many colors. Last of June.

Iris Siberica (Siberian Iris)—2 to 3 ft. Grass-like foliage with clusters of blue flowers. Adapted for mass and water side planting. May to June.

Lupinus—Blue, white and pink. 3 ft. Flowers in June.

Lychnis Chalcedonica (Maltese Cross)—2 to 3 ft. Flat heads of bright scarlet, borne in stout, leafy stems. July-August.

Pachysandra terminalis (Japanese Spurge)—An evergreen ground cover with attractive dark green leaves, valuable for planting in shady places where grass will not grow.

Physalis Franchetii (Chinese Lantern plant)—Enormous orange colored fruit. 2 ft. April-May.

Pyrethrum hybridum (Persian Daisy)—Large daisy-like blossoms on slender stems. Fern-like foliage. Excellent for cutting. 2 ft. June and July. Single and double mixed in pink, white and red.

Statice latifolia (Sea Lavender)—18 inch. July to September. A profusion of long lavender flowers borne in light airy panicles.

Phlox

Phlox decussata—During the dry, hot summer weather when vegetation looks its worst, these plants can be depended upon to brighten the garden with their brilliant colors ranging from white to rich crimson.

35c each. \$3.00 per 10.

Phlox General van Heutz—Bright salmon red, white center.

Phlox Mrs. Lingard—Fine white.

Phlox Riverton Jewell—2 ft. Clear pink.

Phlox Rynstrom—Deep pink.

Phlox Rheinlander—Soft salmon pink; deep red eye.

Phlox subulata—A creeping variety with moss-like evergreen foliage, covered with pink flowers in spring. Splendid for ground cover, for edging and for rockeries.

Phlox Thor—Rich salmon pink.

Paeonia

Paeonia Aurora (Imported)—Attractive salmon white. \$1.00 each.

Paeonia, Gloria de Chas. Gambault (Imported)—Outer petals fleshy pink with clear salmon center; very beautiful.

\$1.25 each. \$10.00 per 10.

Paeonia, Linne (Imported)—Bright deep pink. A new rare variety, very large flower. \$1.50 each.

Paeonia, Madame Emil Lemoine (Imported)—New French variety. Among the finest of all whites. \$1.50 each.

Paeonia, Monsieur Kre-lahe (Imported)—Large to very large, full flower, deep wine red; solid color; finest habit; very fragrant. \$1.00 each.

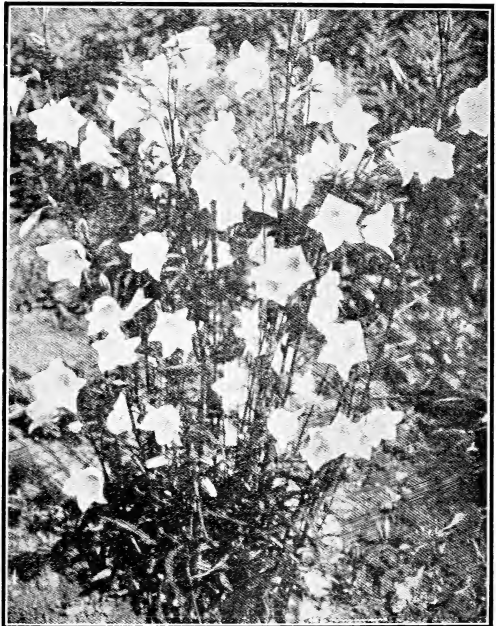

Paeonia—Mixed colors, not named. 60c each.

Platycodon (Chinese Balloon Flower)—1 ft. Attractive wide open bell-shaped flowers of light blue. July-September.

Rudbeckia laciniata (Golden Glow)—5 to 6 ft. July-September. Golden yellow dahlia-like flowers in clusters. Excellent for background and for planting in odd corners.

Yucca filamentosa (Adams Needle)—Sends up tall stalks laden with ivory white flowers in June and July. Evergreen sword-like leaves. Desirable in shrubbery or Perennial border.

\$1.00 each. \$7.50 per 10.

Campanula (Canterbury Bell)

The Dahlia

Is just now the fashionable flower. Its great popularity is due to many attractions; the size and grace of the blooms, so far superior to the older forms, the wide range and brilliance of the colors and a blooming season of late summer until frost.

(Prices, 50c each. \$4.00 per 10.)

Cracy (Single)—Very graceful and a free bloomer. Color delicate pink. Very useful for cutting and effective in combination with the double sorts.

J. J. Jackson (Cactus)—Dark maroon. A very attractive flower and will add beauty to your collection. Excellent for cut flowers.

Lyndhurst—Brightest vermilion. The best red for cutting. Decorative.

Mrs. Harding (Decorative)—Deep orange color that has plenty of flash to it. Choice fine shaped blooms freely borne on good stems.

President Faillaires (Peony Flowered)—Fine red so vivid as to dazzle the eye with long and stiff stems. Vigorous grower with excellent foliage and very free blooming.

Princess Juliana (Decorative)—An old favorite, where quality and a pure white cut flower is wanted. Exceptionally large, borne on strong stiff stems. Free flowering and vigorous growing.

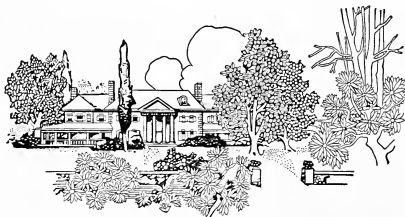

Show Dahlias—Mixed colors. This mixture contains all of the most attractive colors and combinations and is undoubtedly the best selection of mixed dahlias on the market. \$1.00 per 10.

The Lawn

The joy and delight of every home builder is a good lawn. The green carpet is the canvas upon which the house, trees, shrubs and flowers depend for setting. We will be pleased to give you an estimate on making you a good lawn.

Lawnseed (best mixture for this locality)—45c per lb. \$4.00 per 10 lbs.

Fertilizers—Sheep manure, bonemeal, lime, etc. Prices on application.

Fruits for the Home Garden

In the extremities of the lawn or upon the adjoining lot, plant fruit trees. They will bountifully reward you in the fruit they yield and which you will enjoy eating right from the trees or, in winter as preserves and jam. The fruit garden can easily be made a part of the scheme for beautifying your property. Flowers along the walk to the orchard will brighten the way and provide flowers for cutting.

The following is a limited selection of varieties that we know will do best on Long Island.

APPLES—Early varieties: Red Astrachan, Yellow Transparent. Autumn varieties: McIntosh, Fameuse. Winter varieties: Baldwin, Delicious, R. I. Greening and Stayman's Winesap. Each

5 to 6 ft. selected 2 and
3 yrs. old.....\$1.50
6 to 10 ft. selected 4 to
6 yrs. old...\$2.00 to \$6.00

PEARS—Barlett, early; Clapp's Favorite, early; Kieffer, late. Each

4 to 6 ft. selected 2 and
3 yrs. old\$1.50
6 to 9 ft. 4 to 6 yrs. old
\$2.00 to \$5.00

Plant a few fruit trees anyway. They are ornamental; and then no matter how plentiful fruit may be on the market, there's a flavor to one's own productions in the orchard and garden, that just can't be found elsewhere.

Grapes

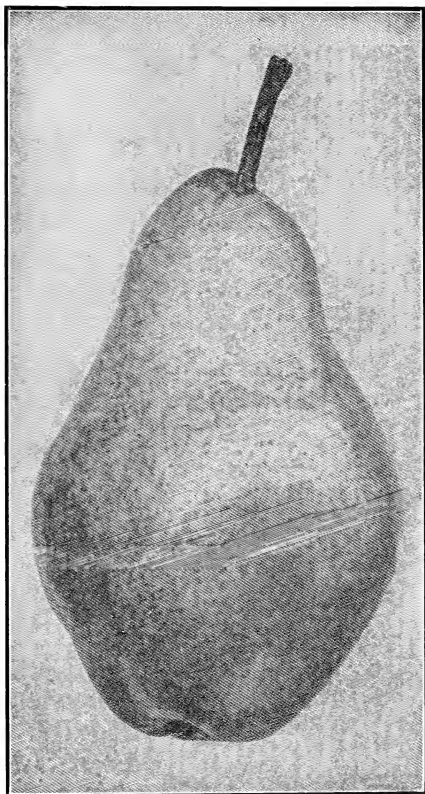

Concord—Blue, early, fine flavor. Most popular standard grape grown today.

Niagara—The best standard white.

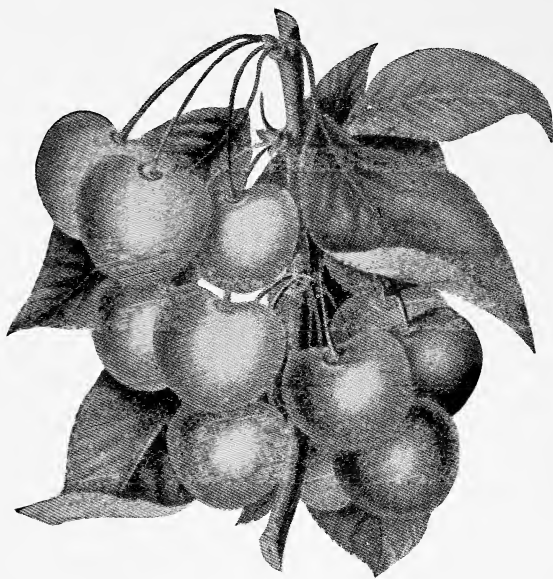

Worden—Black, large berries.

Lindley—Fine red grape. Strong 2-year-old plants, 50c each. \$4.00 per 10.

Strong 3-year-old plants, 75c each, \$7.00 per 10.

Bartlett Pear

Black Tartarian Cherry

CURRENTS—Red, White and Black.

35c each. \$3.00 per 10.

Extra large 75c each.

GOOSEBERRIES—Downing, green; Houghton, red.

50c each. \$4.00 per 10.

These two varieties are recognized as the standards.

RASPBERRIES — Everbearing. They require very little attention and supply plenty of delicious berries.

15c each. \$1.25 per 10.

SPRAYING OF FRUIT TREES

For best results we recommend three sprayings. First, during the winter; second, after the blossoms fall; and, third, two weeks later. This will control the most prevalent insects and fungus diseases attacking fruit trees on Long Island.

We have men experienced in this kind of work, who are available at a moderate cost.

Peaches

Crawford—Early, yellow, freestone peach. One of the most popular varieties.

Belle of Georgia—Early, white; freestone.

Elberta—Early, yellow; a very popular freestone.

Crawford Late—Late, yellow; freestone.

Any of the above varieties: Each

3 to 4 ft.....\$0.75

4 to 5 ft. (extra strong)... 1.25

CHERRIES — Black Tartarian, sweet; Early Richmond, sour. Each

5 to 6 ft.....\$1.75

PLUMS—Burbank, large, cherry red. Each

5 to 6 ft.....\$1.75

QUINCES — Champion and Orange. Each

3 to 4 ft.....\$1.50

4 to 5 ft..... 1.75

Our Summer and Winter Pruning Service

You may arrange with us to carry out this work for you. We have available trained gardeners of long experience, who will execute this work successfully and economically. If you so desire we will be pleased to place your name upon our pruning list, which means that when the pruning work should be done, we carry out the work without further inconvenience to you.

Much disappointment in general planting work is the result of lack of after care. Proper pruning is essential if satisfactory results are to be secured. Flowers, shrubs, trees and certain evergreens, all have their special pruning requirements and, on account of the time at which different flowering wood is made, it is necessary that such work be done under the direction of a gardener of long experience and training. Many so-called gardeners who, though able to plant successfully, are not sufficiently trained regarding different requirements of plants to be able to carry out pruning work successfully. Such work accounts for the round sheared effects so often seen, and also for the lack of flowers during the spring due to the fact that all the flowering wood was removed by careless pruning.

We consider it a pleasure to offer suggestions in regard to planting problems, without charge, to intended purchasers. Drop us a card or phone Bay Shore 542 and we will be pleased to look over your place.

Let us pull together for a charming landscape.
